RE: Tukwila Fire Department Incident #00-2396

Pursuant to Tukwila Municipal Code 8.08.040, we are notifying you of our response to a false fire alarm occurring on 07/22/00 at 1:38 PM. This false alarm incident occurred at 9010 East Marginal Way S.

Our records indicate this is false alarm incident # 1 for this calendar year. As established by ordinance, the first and second false alarm in any calendar year will result in no fine. On the third false alarm, a fine of \$25.00 is levied. On the fourth false alarm response and each response thereafter during a calendar year, a fine of \$50.00 is levied.

We respect your alarm as an emergency notification of eminent danger for yourself, your employees, or your property. An exigent response incorporates certain levels of danger and exposure for our personnel and the public at large. False alarms cause unnecessary risk and generate complacent attitudes, thus, we encourage you to maintain a reliable and trustworthy system.

Should you have any questions regarding this notice, contact our Administrative Representative, Diann Martinez at 575-4404. For advice and programs on fire prevention, call 575-4404 and ask for the Fire Prevention Bureau.

Sincerely,

Nick Olivas
Assistant Chief
